GIN & TONIC

a feast for Juniper & Quinine bonhomie

The midday or evening drink of Gin & Tonic got invented in Ooty by British when they made this botanical town their abode. It is said that in effort to subdue the intensely bitter flavor of cinchona bark extract, British Soldiers stationed in India mixed the quinine extract with the sugar, water, lime & their "Gin ration" thereby invented the cocktail today known as the Gin & Tonic. The British had a purpose in taking that drink other than alcoholic aspect. The "tonic" is quinine water prevents/cures malaria & is health wise beneficial in several ways.

It is not too much of a stretch to say that the gin & tonic was as essential a weapon for the British Empire as the Gatling gun. No less an authority on imperial power than Winston Churchill once declared, "The gin & tonic has saved more Englishmen's lives, & minds, than all the doctors in the Empire."

At Savoy we take pride serving G&T with an accompaniment of your choice, choose from varied flavours of Lemon Zest, Cucumber, Sage, Thyme, Mint or Seasonal Fruits
